Can't Praise It Too Much, He Says
Is Glad He Took It For It Has Completely Restored His Health

"In three weeks I picked up ten pounds in weight and I can say that Tanlac will do all they say it will," said Barney Johnson Lee, 2220 Lyons Avenue, Louisville, Ky.

"Back in February I had a spell of the 'flu' that left me all run-down and my stomach out of order. After I went back to work I was so weak I could hardly hold out during the day. My appetite was so poor I had to force down enough to keep me alive and it always soured on my stomach and caused me no end of trouble. My nerves were unstrung and it was next to impossible for me to get a good night's sleep. I was just about played out."

"I had heard about Tanlac and when I saw the statement of Reverend Charles Sanders, of Huntington, W. Va., I decided to try it. My appetite picked up right away, and in a few days the indigestion commenced to leave me. Although I have taken only two bottles of Tanlac I have gained ten pounds, my nerves are strong and I sleep like a top every night. I am as well and strong as I ever was and feel like my old self again."

Tanlac is sold in Mt. Vernon by Chas. C. Davis; in Brodhead by the Brodhead Pharmacy, and in Livingston by R. G. Webb; in Burr by W. M. Owens.

1000-500

"Rockcastle County for 1000 Junior Agricultural Club members for 1921 and Southern Madison for 500," is being carried to each school in the two counties. This number will be reached by December 31. The teachers are asked to write to County Agent, Berea, Ky., for club plans and application card if they wish to start a club in their school.

Last week the Mt. Vernon Signal and Berea Citizen published the objects of the Junior Agricultural Club Week before last the Citizen published the benefits of Club. This week we want our enrollment started.

HOW TO ENROLL IN CLUB.

All boys and girls between 10 and 18 years of age, who are in school go the teacher and give name, age, parents name, address, and what expected to grow, and teacher will send information to County Agent.

The boys and girls who are not in school can send in the above information through the teacher in their district, or directly to County Agent, Berea.

HELP NEEDED.

The County Agent wants the assistance of teachers, trustees, local club leaders, presidents of community clubs and parents in putting Rockcastle County over the top for 1000 club members and Southern Madison for 500. November and December are the months to reach our mark of 1500 members.

CLUB SONG.

Its A Long Way To Club Perfection.
(Tune—"Tipperary.")
Its a long way to club perfection,
Its a long way to go;
But we'll raise pigs, chicks and gardens,
And we'll cook, can and sew;
Goodbye loss and failure; goodbye doubts and fears,
Its a long, long way to club perfection,
But we're getting near.

JUNIOR CLUB MEMBERS.

All Junior Agricultural Club members are asked to help in the enrollment. Application cards will be sent to any club member on request. Where we now have club centers with 6, 10 or 18 members we want 18, 20 and 25 for 1921.

Robert F. Spence,
County Agricultural Agent.

CLUB SONG.

Our Club Will Shine.
Our Club will shine tonight,
Our Club will shine,
Will shine with beauty bright,

All down the line.
We're all dressed up tonight,
That's one good sign,
When the sun goes down and the moon comes up,
Our Club will shine.

CLUB YELL.

Rick a Boom! Rick a Boom!
Rah! Rah! Rah!
We are here! We are here!
We are here now!
Take a look! Take a look!
Best you ever saw!
Junior Club! Junior Club!
Rah! Rah! Rah!

FARMERS.

Now's The Time.

CAMPAIGN ROCKCASTLE COUNTY.

Beginning November 1, there will be one of the biggest and most beneficial campaigns launched in Kentucky that she has ever had. This campaign will end December 31. It will be carried from valley to valley and from hill top to hill top. It will be worked through the schools and other organizations.

The County Agent of Rockcastle County is very enthusiastic about what can and will be done. He wants the assistance of teachers, trustees and parents in order to put Rockcastle County in the lead in the state. He says it can be done with the right kind of work.

This Campaign will not ask the people of the County a penny. It will, however, bring thousands of dollars to the people. Let's all get ready and help put Rockcastle County in the lead.

Plans and details will be published in Signal from week to week—Watch each issue.

"Brighten The Corner Where You Are."

ONLY A COLD.

Are you ill? Is often answered—"Oh! it's only a cold," as if a cold was a matter of little consequence, but people are beginning to learn that a common cold is a matter not to be trifled with, that some of the most serious diseases start with a cold. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. Remember that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.

The Right Direction

If you are going anywhere, the natural thing to do is to travel in the direction of the place you desire to reach. The speed you make merely regulates the time of your arrival—if you are headed right.

It is not the amount of money you save, but the fact that you have begun to save, that invests the act with a certain moral influence which, properly encouraged, becomes stronger and stronger all the time. That's why we urge you to open an account with us and get started on the right road, where the going is easy. Start an account today and watch it grow.

ANNOUNCEMENT

We are authorized to announce, subject to the action of the Republican Party at next August Primary, T. J. HALL, For Circuit Court Clerk

TO HYATT CRAWFORD.

Your training now is over,
Your equipment is complete,
Your service record is clear.
For you the final assembly has sounded,
The Supreme Command has summoned you O'centered,
Fearlessly you have answered,
Over the dark sea of Death thy soul is conveyed,
Piloted by the hand that never falters,
We miss you, Hyatt—
We grieve that so soon you must leave us,
With tear-dimmed eyes and heavy hearts
We on the shore must bid you a fond Farewell.
But ere long we too must answer to the same summons,
We too must make the same Voyage,
You in going have made it easier for us to follow.

DIPHTHERIA AND HOW TO PREVENT IT.

Diphtheria is more prevalent this year than usual; this statement is vouched for by the State Board of Health, and the increased number of cases we have had locally in the last month or two. While this disease has been some what controlled by the use of Diphtheria Antitoxin and fewer deaths reported. There seems to be no material change in the number of cases reported.

The most logical way to eliminate this disease is through the Schick Test which determines whether a child is susceptible to diphtheria by a very simple method. The serum is injected into the child's arm, if the area immediately around the spot turns red in a given time, this denotes the absence of sufficient resistance power in the blood to counteract or drive out the diphtheria germ, and the child should be given an immunizing dose of the serum known as toxin-antitoxin which renders complete immunization for several years. If there is no positive reaction from the Schick test as has been explained above the child is immune.

In conclusion we can only say that it should be compulsory for every school child between the ages of 6 and 12 to be given this test and treatment made as indicated. By this means diphtheria would soon be eradicated and hundreds of lives saved. See your County Health Physician or write The State Board of Health, Louisville, Ky., for any information you may desire in regard to this matter.

Y. W. C. A. PLANS WORLD PROGRAM

Mrs. John D. Rockefeller, Jr. Heads Association's 1920 World Service Program.

\$3,000,000 NEEDED FOR WORK

Leader Calls Association a "Stabilizing Influence" in Outlining Post-War Program for Women—Federal Council of Churches to Announce "Y. W. C. A. Sunday."

Mrs. John D. Rockefeller, Jr., chairwoman of the National Educational Campaign Committee of the 1920 World Service Program of the Young Women's Christian Association, has made the following statement:

MRS. JOHN D. ROCKEFELLER, JR.
Chairman of the Educational Campaign Committee of the Young Women's Christian Association.

difficulties which beset the lives of girls and women everywhere. In meeting the post-war needs of women the Young Women's Christian Association stands as an instrument of service tested and proven by war, and organized to meet the manifold problems of peace.

"Because of its fifty odd years of experience in meeting fundamental problems affecting girls, the Young Women's Christian Association is an organization particularly fitted to exert a stabilizing influence upon the troubled times through a consistent program of service for girls and women.

"American women are asking how they may share in the world's reconstruction. They can do so by extending the support of their communities for this World Service Program, which will insure to the world a healthier and better womanhood.

"This campaign of the Y. W. C. A. to tell the people of the United States about its work and to raise \$3,000,000 with which to carry on Y. W. C. A. work during 1920 in the United States, Europe, China, Japan, India, South America, Egypt, Siberia and Mexico will close the week of February 22 to 29, which will be known as Y. W. C. A. Week.

"The Federal Council of Churches will probably set one Sunday as a time for ministers throughout the country to address their congregations on general conditions affecting women and the Young Women's Christian Association as an instrument of service.

"The immediate task is to bring to the people of the United States a knowledge of conditions affecting the lives of women in all parts of the world. We can no longer ignore the character, the manner of life and the ideals of other peoples, whether we want to or not. A special call is now coming to the Association from China, Japan, India and South America, where work was held back during the war because of the necessity for special activity in France and the United States.

"The World Service Program calls for \$1,500,000. Of this amount \$1,500,000 has already been secured."

The educational campaign committee includes among its members Mrs. Robert E. Speer, president of the National Board of the Y. W. C. A.; Mrs. Henry B. Hays, Mrs. William Van Vleet, Mrs. Robert L. Dickinson, Mrs. William Adams Brown, Mrs. Van Sanford Merle-Smith, Mrs. Lewis H. Lapham, Miss Ellen Thibault Stevenson, Mrs. Frederic B. Pratt and Mrs. Herbert Lee Pratt.

WM. J. BRYAN SAYS FILIPINO WON THE HONORS

In a signed, copyrighted article written from the Democratic convention hall at San Francisco for the International News Service, William J. Bryan said the following remarkable tribute to Jose P. Melencio, the young Filipino who is in charge of the Philippine independence publicity campaign in the United States:

By WILLIAM J. BRYAN.
The greatest personal victory yet won in this Democratic convention was scored by a young Filipino by the name of Jose P. Melencio. He has charge of the Philippine Publicity Bureau at Washington.

He is only twenty-six years old and received his education in the public schools of the Philippines—under American teachers, as he proudly boasted—and at Georgetown, D. C. He is a remarkably promising young man.

Speaking with grace, using the best language and without a trace of embarrassment, he presented the claim of the Filipinos to independence. The audience was astonished at the strength of his argument, the skill with which he marshaled his facts and the high tone of his speech. He captivated everyone and convinced and astounded him the compliment of being and cheering when he concluded his plan.

When one of the committee asked him some questions he returned to the platform and answered them with as much logic and precision as if he had taken weeks to prepare his answer. It was a remarkable triumph.

As one who began twenty-two years ago to fight for the people of independence I was proud of this illustration of what the Filipino is capable.

SOME FACTS ABOUT THE PHILIPPINES

The University of Santo Tomas is 25 years older than Harvard.

The Filipino people number 10,350,040, of which 9,495,272 are Christians and only 9 per cent non-Christians.

They have been Christians for 300 years and have a culture and refinement that will compare very favorably with that of other nations.

There are only 6,681 Japanese in the Philippines. There are about 100,000 Japanese in California alone, or 15 times as many as in the entire Philippine archipelago.

English is taught exclusively in the Philippine public schools. Two million natives now speak English fluently, and there are 700,000 English speaking children in the public schools. It is destined to be the national language.

Seventy per cent of the inhabitants of the Philippines over ten years of age, according to a census just completed, are literate. This is a higher percentage of literacy than that of any South American country, higher than that of Spain and higher than that of any of the new republics of Europe whose independence is being guaranteed by the Allies.

The Filipino people are unanimous in their desire for independence. Whenever they are called upon to deposit their ballots they have always ratified this aspiration. At every session before adjournment their representatives in the Legislature reiterate their faith in the principles of liberty and the independence of the Filipino people.

The Filipinos declare they have no grudge or grievance against the American people. Their appeal is accompanied by a message of friendship and gratitude for all that America has done for them. They point out that Uncle Sam gave independence to Cuba, and they hope that they, too, will receive that boon without which, they declare, no civilized and patriotic people can enjoy the maximum of happiness and self-respect.

A special delegation of Filipinos, officially representing the Filipino people, attended the Republican and Democratic National conventions, seeking an endorsement of the Filipino desire for independence in the two platforms. Their arguments, briefly stated, were as follows:

First.—That the American Declaration of Independence declares that governments derive their just powers from the consent of the governed;

Second.—That the American Congress, in the Jones law, solemnly promised the Filipino independence upon the establishment of a stable government, and that their claim that the said stable government is now in existence in the islands has been officially confirmed by America's own representatives there; and

Third.—That America went before the world in the recent war as the avowed champion of "self determination," American soldiers having been told it was one of the things they were fighting and dying for.

A GOOD COUGH MEDICINE FOR CHILDREN

Mrs. J. W. Phillips, Redon, Ga. phoned to J. M. Floyd, the merchant there, for a bottle of Chamberlain's Cough Remedy and said she had bought a bottle of it at his store recently and that it was doing her children so much good that she wanted to keep up the treatment. You will find nothing better for coughs and colds in children or for yourself. It keeps the cough loose, expectation easy and soon frees the system from the cold.

THE AMERICAN RED CROSS IN PEACE TIME

Boys and girls who learn early to take proper care of their teeth, throats, eyes, ears and stomachs, have made a long step toward healthy manhood and womanhood. Through its public health and nursing services, the American Red Cross aims eventually to reach all school children with teachings regarding disease prevention and health promotion. Here's a school nurse treating a little girl for sore mouth, at the same time implanting a valuable lesson in tooth-brushing and proper diet.

JUNIOR RED CROSS WORKING AT HOME

Production of Sound American Citizenship the First Aim, Says Dr. Farrand.

On the badge of every member of the Junior Red Cross are the words "I Serve." That tells the story of the school children's branch of the American Red Cross and its efforts to bring happiness to children throughout the world.

Realizing that the time never was so propitious as right now for teaching the highest ideals of citizenship, the entire present program of the Junior Red Cross has been framed under the very inclusive phrase, "Training for Citizenship Through Service" for others. Since the Junior Red Cross is the agency through which the American Red Cross reaches the schoolboys and the schoolgirls, all its activities are designed to come within the regular school program, and without creating new courses or increasing the number of studies to lend its aid in vitalizing the work of the schools.

"The thing that is needed," says Dr. Livingston Farrand, Chairman of the American Red Cross Central Committee, "is not a perpetuation of the Junior Red Cross, but the training and breeding of sound American citizenship inspired by the true, fundamental ideals of sound democracy. One of the great conceptions in making the Red Cross a contributor to better citizenship in our American democracy is the realization that after all the sole hope of any nation is with the children of the country."

The plan of organization of the Junior Red Cross makes the school—public, parochial and private—the unit, not the individual pupils. Mutual service, helpful community work such as clean-up campaigns, care of the sick, promotion of health regulations, per-formation of civic and patriotic movements—all these creative agencies designed to translate into life and action the regular school program are parts of the machinery which the Junior Red Cross places at the disposal of the school authorities.

Graded study courses giving practical methods of civic training, supplemented by pamphlets and helpful suggestions, are supplied to the local schools by the Junior Red Cross. An elaborate plan for promoting an interchange of correspondence between children in different sections of the United States as well as with children in foreign lands is being devised and will take a prominent place in the established classroom program.

In promoting the general cause of child welfare, Red Cross courses in home hygiene and care of the sick, first aid, and dieting may be established in all Junior Red Cross Auxiliaries.

The ideals and the objective of the Junior Red Cross are embodied in the pledge of service which the pupil takes when he signs the membership roll and plus on his coat the Junior badge.

The pledge which binds together service and citizenship reads: "We will seek in all ways to live up to the ideals of the Junior Red Cross and devote ourselves to its service. We will strive never to bring discredit to this, our country, by any unworthy act."

"We will revere and obey our country's laws and do our best to inspire a like reverence and obedience in those about us."

"We will endeavor in all these ways, as good citizens, to transmit America greater, better and more beautiful than she was transmitted to us."

At the foundation of this school program of the Junior Red Cross is a great love for America's children.

RED CROSS ACTIVE IN DISASTER RELIEF

When disaster hits a community—fire, flood, earthquake, explosion, bed wreck or tornado—the American Red Cross can be depended upon to supply right at its heels with help for the stricken people. Red Cross relief is almost immediately forthcoming—food, clothing, shelter and funds; doctors, nurses and special workers with long experience in handling similar trouble elsewhere.

During the last year, ending June 30, there was an average of four disasters a month in the United States. One hundred and sixty communities in twenty-seven states suffered. The largest and most destructive of these were the tidal wave at Corpus Christi, Texas, and tornadoes in Mississippi, Louisiana, Alabama, Georgia, Ohio, Indiana and Illinois.

In these events of horror 850 persons were killed, 1,500 were injured, 13,000 were made homeless, about 50,000 families needed help, the property loss was nearly \$100,000,000 and \$1,000,000 in relief funds, not including emergency supplies was expended.

To the sufferers from all disasters during the year, the American Red Cross sent \$120,000 worth of supplies, 110 Red Cross nurses and seven special relief trains. To meet the needs of the stricken, the organization set up ten relief stations, operated thirty food canteens and as many emergency hospitals. One hundred and twenty-five Red Cross chapters gave disaster relief service.

If disaster ever strikes this town or county, the citizens can be absolutely sure the Red Cross will be right on hand to help them in every way.

SMALL Y. W. C. A. IS COMMUNITY CENTER

Recreation for Girls is Important Feature of Work. Fifty-two young women in the United States are known as Y. W. C. A. "town secretaries." All of which means that the fifty-two are organizing recreation work for girls and for the community at large in towns of less than 10,000 inhabitants. The Y. W. C. A. may be in one rented room or more. It may be a whole building, but at any rate there is a recreation room and if possible a kitchen, reading and writing rooms. If the Y. W. C. A. has a building of its own it becomes a community center, where all women's organizations may meet.

Colds & Headache

"For years we have used Black-Draught in our family, and I have never found any medicine that could take its place," writes Mr. H. A. Stacy, of Bradyville, Tenn. Mr. Stacy, who is a Rutherford County farmer, recommends Black-Draught as a medicine that should be kept in every household for use in the prompt treatment of many little ills to prevent them from developing into serious troubles.

THEDFORD'S BLACK-DRAUGHT

"It touches the liver and does the work," Mr. Stacy declared. "It is one of the best medicines I ever saw for a cold and headache. I don't know what we would do in our family if it wasn't for Black-Draught. It has saved us many dollars. . . I don't see how any family can hardly go without it. I know it is a reliable and splendid medicine to keep in the house. I recommend Black-Draught highly and am never without it."

MAKING WAR ON DISEASE MENACE

American Red Cross Announces Budget of \$48,200,000 For Current Year.

NEW DISASTER RELIEF PLAN

Continuance of Heavy Work Abroad Deemed Necessary to Protect United States—\$21,000,000 Less Than Last Year.

A program of relief and service to ward which appropriations of \$18, 200,000 have been made has been outlined for the American Red Cross for the fiscal year, July 1, 1920, to July 1, 1921, according to official announcement by national headquarters of the organization in Washington. The figures for 1920-21 are \$21,000,000 below those of 1919-20, in which \$29,000,000 was spent.

Important among the items of the budget for the present year is the appropriation of \$11,000,000 for relief in foreign lands, which includes \$11,000, 000 in purchased supplies on hand and not distributed.

Must Protect United States. This will enable the American Red Cross to continue its humanitarian effort to aid stricken peoples to establish themselves, to fight the disease epidemics which threaten many countries and to offset largely the remaining traces of the blight left by the World War. It is regarded as social as well as physical sanitation on a large scale that will have a direct bearing on future conditions in America.

Central Europe, the chief sufferer from the conflict, today is facing another winter of famine, pestilence and ruin. Typical decreased much during the summer months where last winter it had its greatest stronghold, but physicians who investigated the situation in the midst of the "famine of food" Cross Societies have given their unqualified opinion that this coming winter will see a recurrence of an unprecedented scale. The Red Cross feels it must continue preventive measures abroad to keep this and other deadly maladies from the United States.

Millions for Work at Home. When the disease was sweeping Central Europe last winter the American Red Cross, with the aid of the governments of allied nations, undertook the fight against it. Hospitals were established wherever possible and food and clothing were distributed to the undernourished populations, who by reason of their undernourishment were easy prey to the epidemics. Where disorganization contributed last year to the great famines made by the disease, by virtue of its knowledge of the disease and the presence of well established hospital centers, the American Red Cross this year will undertake the work with a new confidence.

Including the total of \$11,000,000 in supplies left from the last fiscal year, the \$21,000,000 is \$21,000,000 less than the expenditures for 1919-20. Appropriations for domestic activities total \$17,000,000.

The largest item of this "home" budget is \$8,000,000 for civilian relief work. This includes services and assistance for families of soldiers, sailors and marines, and work incidental to disaster. Of the total appropriation for civilian relief, \$5,000,000 is held in reserve for the carrying out of actual disaster relief.

Reduced Overhead Expense. The Red Cross invariably is the first thought of a community visited by calamity. With this in mind, it was determined by the Executive Committee in preparing the budget of 1919-20 to have a fixed reserve fund from which to draw in these instances. For assistance to soldiers, sailors and marines in hospitals and in camps this year \$1,200,000 has been set aside. Four million two hundred thousand dollars has been appropriated for improvement of health and prevention of disease throughout the United States during the present year. The Red Cross is co-operating fully with the United States Health Service in this work and through its Junior Red Cross is doing much to spread among children the principles of sanitation. An appropriation of \$1, 000,000 has been made for developing the peace time program of the Red Cross by service to its chapters in all regions.

The appropriation of \$18,200,000 is exclusive of the local expenditures of the 3,000 or more chapters. Administration expenses this year will be \$1,800,000. Last year they were \$2,300,000.

IT COSTS TOO MUCH TO BE SICK

Keep Your Blood in Good Condition and You Throw Off Disease

PAY ATTENTION TO YOUR HEALTH

No Need to Take Chances with It. Pepto-Mangan Makes Rich, Red Blood

When you first feel a tired, all-gone feeling, and look pale, your blood is losing its quality. Weak, impoverished blood has no power to fight disease. It takes red blood to keep you well.

If you keep your blood in good condition it will fight off disease. You will not be such an easy prey to long and expensive sicknesses. With this blood you take chances every day.

There's no need doing that. You can take Pepto-Mangan and build up rich, red blood. With red blood you are able to win in the fight against prevailing diseases. Try Pepto-Mangan. It comes in tablet or liquid form. Take either kind. The tablet has the same medicinal value as the liquid. But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the name, "Gude's Pepto-Mangan" is on the package.

MOTHER

Twice she, my friend, who gave you birth, And brought you to this glorious earth. Upon her heart before the hearth She cooed and cuddled you. She wrapped you in your long white gown, She brushed and kissed your fuzzy crown, And never deigned to lay you down 'Till drink had fuddled you.

In nightrobe, kneeling by her chair, Her hand upon your silken hair, You learned to hush that first sweet prayer,

To childhood known: "And now I lay me down to sleep, I pray the Lord my soul to keep— Why should you hold that soul so cheap, When you are grown?"

You toddled off to school one day; "I'll have a rest," she tried to say, Until the tears got in the way; For ten times thrice She watched your coming at the door!

Imagine how her heart gets sore When you are gone forevermore To schools of vice.

You left your home in early years, In with your clothes she packed her fears;

You'd think to see her sprinkling tears "Twas ironing day.

For every kiss she gave you ten! How many, many times since then, She's wished and wished you back again— Back at your play.

If you would watch your steps today

As she did in your childish play, You'd never go in paths astray Where vices lead!

Could you but feel the joy that came To her, when first you lisped her name

You'd never cover it with shame By one misdeed.

Had her breast been one half as cold

As yours to her, now she is old, Your tale of life were easy told, And out of mind.

You are not worth, e'en at your best

One-half your cost of sad unrest; Yet in the temple of her breast You are enshrined.

No love like hers when all is said; She'd sell her shoes to buy you bread, And choke her hunger while you fed—

Would any other? Forgive you ninety times and nine, And for your sake your life resign; If there's one thing on earth divine; 'Tis your good mother.

Though much the human breast may bear; Some mothers get more than their share Of broken heart and whitened hair; Can you deny it? The greatest debt that you can owe is to that mother—you may go And pay it with a kiss or so; Suppose you try it.
